GARDEN & LANDSCAPE
FOUNTAINS - CENTREPIECE

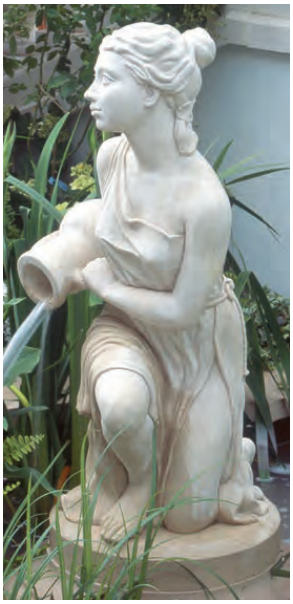
General Note: Simple precautions should be taken to avoid frost damage to fountains. Water should be drained off before winter every year and not replaced until spring when any risk of hard frost has passed.

Single Dolphin Fountain HC171

Height: 740mm (29⅛")
Weight: 25kg (55 lb)

Recommended Pump: X210

Water Nymph HC390



This charming design features a water nymph in a classical pose. The fountain can be positioned either adjacent to a pool or used as a centrepiece. Can be supported on an A240 Plinth, see page 32. A complementary design to Haddonstone's Four Seasons statues (see page 67).

Height: 1005mm (39½")
Base diameter: 435mm (17⅛")
Weight: 135kg (297 lb)

Recommended Pump: X210

Large Dolphin Fountain C172

The dolphin is considered the king of the fish. In classical ornament the dolphin often appears as an attribute of Neptune, the Roman god of the sea. This piece was inspired by early XVI century Italianate designs. For pedestal see S310S string on page 160.

Height: 905mm (35½")
Length overall: 700mm (27½")
Width overall: 670mm (26½")
Weight: 94kg (207 lb)

Recommended pump: X220

TS Tech Sheet No. F45

Lion Fountain C300
Fountain Base C305

The lion sejant shown as a fountain with water spouting from its mouth. It is mounted on a waisted octagonal base. Also available as a finial, see page 71.

Width at lion base: 280mm (11")
Width at base: 355mm (14")
Height of lion: 610mm (24")
Height of base: 280mm (11")
Weight of lion: 36kg (79 lb)
Weight of base: 31kg (68 lb)

Recommended pump: X210

West Lodge Fountain HC780

Replicated for the West Lodge Park Hotel in Hertfordshire, this elegant fountain is ideal for use as a centrepiece in a small pool. One of the latest additions to the Haddonstone Collection. For Urn see page 15.

Height: 527mm (20¾")
Width overall: 660mm (26")
Width at base: 273mm (10¾")
Weight: 74kg (163 lb)

Recommended pump: X210

For details of pool surrounds, see pages 97-102. TS Tech Sheet No. F40

Italianate Fountain
TLHC610

Launched at the 2017 Chelsea Flower Show, the impressive new Italianate Fountain is ideal for a large pool where a high jet of water can be achieved.

Incorporating three entwined dolphins supporting a gadrooned bowl with an egg-and-dart rim, the design is recreated from a Victorian cast iron design by the famous Handyside Foundry in Derby. Famous commissions included the Albert Bridge linking Chelsea to Battersea in London and the National Agricultural Hall in London, now Olympia.

Top width: 985mm (38¾")
Base width: 585mm (23")
Height: 1185mm (46⅝")
Weight: 238kg (524 lbs)

Recommended pump: X220

Neapolitan Fountain
C3700

A centrepiece fountain featuring a Boy-holding-dolphin centrepiece, the dolphin's mouth being the fountain head. Supported by an ornate base, the fountain bowl is the shape of a round shell.

Width of shell: 955mm (37⅝")
Height of shell: 255mm (10")
Width of base: 495mm (19½")
Overall height: 1395mm (55")
Weight: 210kg (463 lb)

Recommended pump: X220

TS Tech Sheet No. F30

Boy-holding-dolphin Centrepiece
C370A

Height: 510mm (20")
Width at base: 180mm (7")
Weight: 15kg (33 lb)

Recommended pump: X201

General Note: Simple precautions should be taken to avoid frost damage to fountains. Water should be drained off before winter every year and not replaced until spring when any risk of hard frost has passed.

Small Neapolitan Fountain
C3750

This charming small fountain features an ornate shell bowl with a naturalistic bud fountain head. Ideal for use as a centrepiece in a small pool.

Width of shell: 460mm (18")
Width of base: 250mm (9⅞")
Overall height: 655mm (25¾")
Weight: 36kg (79 lb)

Recommended pump: X201
Optional Pump Housing: HC360I

TS Tech Sheet No. F53

Neapolitan Small Double Fountain
C3650

Formed by two ornate shell bowls and pedestals with a naturalistic bud fountain head, this fountain is ideal as a centrepiece for the Small Pool.

Upper shell width: 460mm (18")
Lower shell width: 680mm (26¾")
Width of base: 325mm (12¾")
Overall height: 1175mm (46¼")
Weight: 99kg (218 lb)

Recommended pump: X210
Optional Pump Housing: HC360H

TS Tech Sheet No. F52

Neapolitan Large Double Fountain
C3550

A large double fountain with ornate shell bowls and pedestals supporting an entwined triple-dolphin centrepiece. Suitable for a Medium Pool.

Upper shell width: 680mm (26¾")
Lower shell width: 955mm (37⅝")
Base width: 495mm (19½")
Overall height: 1705mm (67⅛")
Weight: 262kg (578 lb)

(Registered Design No. 2030926)

Recommended pump: X230

TS Tech Sheet No. F51

Centrepiece Fountain Assembly Recommendations available

For details of pool surrounds, see pages 97-102.

Eton College Fountain C3600

The original for this exquisite triple fountain stood in the Cloister Court of Eton College, Windsor. The badly eroded original has now been replaced by a Haddonstone replica to restore this feature to its former glory.

The fountain comprises ornate pedestals supporting three decorative shell bowls surmounted by a naturalistic bud.

Upper shell width: 460mm (18")
Middle shell width: 680mm (26¾")
Lower shell width: 955mm (37⅝")
Base width: 495mm (19½")
Overall height: 1860mm (73¼")
Weight: 269kg (593 lb)

Recommended pump: X230

TS Tech Sheet No. F50

RHS Wisley Exotic Garden Fountain HC3511

Incorporating stylised passion flower designs to the pedestals and surmounted by a custom made pineapple finial, this striking design was commissioned by the Royal Horticultural Society for their acclaimed new Exotic Garden at Wisley which opened in 2017. Based on the existing Double Lotus Fountain, for dimensions see below.

Recommended pump: X230

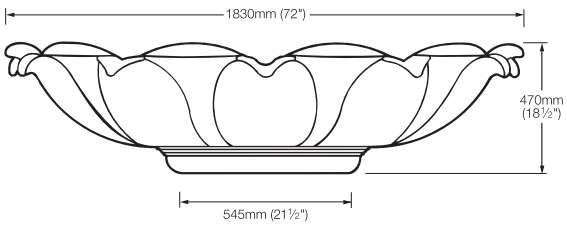
Lotus Bowl HC350 on Pedestal HD2900 or HD2901

The Lotus Bowl makes a spectacular fountain. It may be combined with three dolphins as its centrepiece and mounted on a Doric pedestal (HD2900 or HD2901). (For Triple Dolphin Fountain C1700 and Pedestal C180, see page 96.)

HC350 Weight: 690kg (1520 lb)
HD2900 Height: 1084mm (42¾")
HD2900 Weight: 181kg (399 lb)
HD2901 Height: 1190mm (46⅞")
HD2901 Weight: 194kg (427 lb)

TS Tech Sheet No. F20 & F21

Please note: will require mechanical lifting on site in all instances.



General Note for Lotus Bowl Fountains: these large pieces of masonry are a composite material of crushed limestone and stainless steel reinforcement. They can sometimes suffer from stress induced superficial cracks, due to their shape and size. These cracks will not impact on the long term durability of the product and will selfheal with a chemical process called autogenous healing.

Double Lotus Fountain HC3510

Incorporating the top tiers of the Triple Lotus Fountain.

Diameter of upper bowl: 800mm (31½")
Diameter of lower bowl: 1200mm (47¼")
Width of base: 334mm (13³⁄₁₆")
Overall height: 1692mm (66⅝")
Weight: 367kg (808 lb)

Recommended pump: X230

TS Tech Sheet No. F72

Centrepiece Fountain Assembly Recommendations available

For details of pool surrounds, see pages 97-102.

Triple Lotus Bowl Fountain HC3500

Launched at the 1997 Chelsea Flower Show, each bowl of this powerful triple-tiered fountain is supported by fluted pedestals featuring stylised Ionic capitals with the top bowl surmounted by a naturalistic bud. This original design by Haddonstone is based around the standard Lotus Bowl. Ideal for use as a centrepiece to Haddonstone's L, XL and XXL pool surrounds, see page 99.

Upper bowl diameter:
800mm (31½")
Width of base:
500mm (19¾")
Middle bowl diameter:
1200mm (47¼")
Overall Height:
2777mm (109⅜")
Lower bowl diameter:
1830mm (72")
Weight: 1300kg (2863 lb)

Recommended pump: X240

Please note: Lower bowl will require mechanical lifting on site in all instances.

TS Tech Sheet No. F70 & F71

Quadruple Lotus Bowl Fountain HC358

This imposing four-tiered fountain is supported by fluted pedestals with stylised Ionic capitals. The top bowl is surmounted by a naturalistic bud. Shown in an XXL Pool Surround. Bottom shell supplied in three segments.

Upper bowl diam: 800mm (31½")
Bottom bowl diam: 3660mm (144")
Second bowl diam: 1200mm (47¼")
Overall height: 4470mm (176")
Third bowl diam: 1830mm (72")
Weight: 6588kg (14511 lb)

Pump to be supplied by others. Requires mechanical lifting in all instances.

Fontainebleau Fountain C230

For details see Fontainebleau Urn A300 on page 23. Shown on a B360 Large Winslow Pedestal, see page 52. An inverted S310S string may also be used - see page 160.

Recommended pump: X220

TS Tech Sheet No. F80

General Note: Simple precautions should be taken to avoid frost damage to fountains. Water should be drained off before winter every year and not replaced until spring when any risk of hard frost has passed.

Regency Fountain HC510

Shown with non-standard jet. Supplied with Brass Rose Jet X270, see Romanesque Fountain, page 103.

Width at rim: 510mm (20")
Width at base: 220mm (8¾")
Height: 340mm (13½")
Weight: 36kg (79 lb)
Recommended pump: X210

Regency Pedestal HB330 (Illustrated on page 53)

Width at top: 220mm (8¾")
Width at base: 280mm (11")
Height: 430mm (17")
Weight: 42kg (93 lb)

Eastwell Fountain C200

See also, the Eastwell Urn A260 on page 18. For pedestal see Winslow Pedestal B350 on page 52.

Width at top: 785mm (31")
Width at base: 350mm (13¾")
Height: 595mm (23½")
Weight: 89kg (195 lb)
Recommended pump: X210

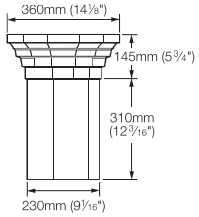
Figured Fountain C220

Shown raised on an optional Jacobean Pedestal B150 (see page 54) to create a stunning centrepiece fountain. See also Jacobean Sundial (page 79) and Figured Bird Bath (page 83).

Bowl diameter: 520mm (20½")
Height: 710mm (28")
Weight: 73kg (161 lb)
Recommended pump: X220

Triple Dolphin Fountain C1700 inc Pedestal C180

Three dolphins set on a pedestal as a fountain centrepiece. See also, Lotus Bowl page 94.



Pedestal C180

Dolphin height: 510mm (20")
Dolphin weight: 15kg (33 lb)
Pedestal weight: 35kg (77 lb)

Recommended pump: X220

TS Tech Sheet No. F22

Centrepiece Fountain Assembly Recommendations available

For details of pool surrounds, see pages 97-102.

GARDEN & LANDSCAPE FOUNTAINS - POOL SURROUNDS

Haddonstone pool surrounds are available in numerous combinations of kerb, vase and plinth sections to suit individual requirements. There are six standard sizes: HALF SMALL, SMALL, MEDIUM, LARGE, EXTRA LARGE and EXTRA EXTRA LARGE.

Straight pool components, including corners, are also available:

TS Tech Sheet No. P60 & P50

Stonework installation kits are available for all standard Pool Surrounds, see price list for details (UK only).

The vase section, which is in the shape of a conch shell, flanked by two dolphins, is supported by a base decorated with palmettes and scrolls. It can be used as a fountain, a planter, or both.

The kerb section has a continuous moulding enriched with ovolo and palmette designs.

The plinth lends appeal to the overall appearance of the pool, raising it from ground level.

Tech Sheets for pool assembly and recommended plumbing layout drawings are available on request. Plumbing Tech Sheets are:

TS Tech Sheet No. P42 for Half Small Pool

TS Tech Sheet No. P12 & P41 for Small Pool

TS Tech Sheet No. P11 & P12 for M, L, XL & XXL

For details of centrepiece fountains, see pages 90-96.

Glass fibre pool liners are available for the Half Small and Small pools only. Larger pools should be lined with a water-proofed render. Both are shown as typical sections, see page 98. Alternatively butyl liners may be used.

Please note that the use of a shallow liner in a Small or Half Small pool precludes the plumbing of vases. A plinth course is required to allow the use of a shallow liner.

Typical average weights:
Kerb sections: 31kg (68 lb)
Vase sections: 40kg (88 lb)
Kerb plinth: 31kg (68 lb)
Vase plinth: 50kg (110 lb)

Simple precautions should be taken to avoid frost damage to fountains. Water should be drained off before winter every year and not replaced until spring when any risk of hard frost has passed.

Half-Small Pool Surround C4HSKV illustrated without plinths (internal diameter 1780mm, 70") showing Lion Wall Fountain

TS Tech Sheet No. P40

For details of centrepiece fountains, see pages 90-96.

PUMPS AND PLUMBING

Pool surrounds
Pumps and plumbing extra – see price list.

Centrepiece and wall fountains, excluding Haddonstone Wall Fountain
Plumbing included. Pumps extra – see price list.

Self-circulating fountains, including Haddonstone Wall Fountain
Pumps and plumbing included.

Please note:
Haddonstone's plumbing kits do not necessarily produce the effects shown in the catalogue. Details of standard and special effect fountain jets are available on request.

Small Pool Surround C4SKVP (internal diameter 1780mm, 70") showing Regency Fountain and Pedestal. For standard fountain jet, see page 101.

TS Tech Sheet No. P40

GARDEN & LANDSCAPE
FOUNTAINS - POOL SURROUNDS

Detail of a pool showing Haddonstone straight and outside corner pool sections featuring non-standard dolphin fountains. Straight kerb and plinth sections are supplied in 660mm (26") lengths. Inside and outside corners, vases and plinths are also available.

TS Tech Sheet No. P60

Client: London Borough of Kensington and Chelsea

Pool and planting display using standard small and large Haddonstone pool surrounds.

Torus Pool Surround showing West Lodge Fountain.

Torus Pool Surround HC485

A simple bull-nosed pool surround which can be used in conjunction with a Haddonstone standard Pool Liner and paving or flooring. Ideal for contemporary garden designs.

Internal diameter: 1720mm (67¾")
External diameter: 2320mm (91⅜")
Thickness: 50mm (2")
Weight (per slab): 25kg (55 lb)
Total weight: 200kg (440 lb)

For details of centrepiece fountains, see pages 90-96.

Roman Pool Surround (Small) C470S showing Eastwell Fountain

TS Tech Sheet No. P100, P105 & P110

Roman Pool Surround

This design extends the range of Haddonstone's pool surrounds. The design features a bold roll moulding and the flat coping forms a low sitting place. Also available are straight and corner stones allowing pools of differing shapes to be made. Glass fibre pool liners are available for the Half Small and Small pools only.

Height: 380mm (15")
Internal radius: 900mm (35½")
Ext. radius (base): 1080mm (42½")
C470S weight: 788kg (1738 lb)

TS Tech Sheet No. P95 & P96

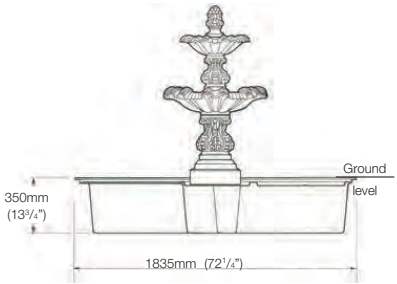
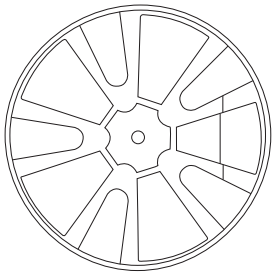
Pebble Pool X435 (Shown with Neapolitan Small Double Fountain)

This sturdy pebble pool is manufactured from 100% recycled plastic and can be used without formal raised pool surrounds. It can be used in conjunction with the following fountains: C172 Large Dolphin Fountain on S310S Support, C300 Lion Fountain on C305 Base, HC390 Water Nymph on A240 Plinth, C200 Eastwell Fountain on B350 Pedestal, HC510 Regency Fountain on HB330 Pedestal, C3650 Neapolitan Small Double Fountain (shown) and C3700 Neapolitan Fountain.

For dimensions, please refer to the diagram. Pebbles not supplied.





For details of centrepiece fountains, see pages 90-96.

GARDEN & LANDSCAPE
FOUNTAINS - SELF CIRCULATING

Small Lagoon Fountain HC380 (not illustrated)
Lagoon Fountain HC383
Large Lagoon Fountain HC385 (not illustrated)

These impressive self-circulating fountains would add style to either a private garden or a commercial project. These designs are also available as planters, see page 43.

	HC380	HC383	HC385
Height:	600mm (23⅝")	600mm (23⅝")	600mm (23⅝")
Top width:	1220mm (48")	1570mm (61¾")	1775mm (69⅞")
Weight:	535kg (1178 lb)	857kg (1888 lb)	1092kg (2405 lb)

Please note: HC385 will require mechanical lifting on site in all instances.

Romanesque Fountain
TLHC521

Adapted from the Romanesque Bowl (see page 31), this low-level fountain bowl can provide an attractive self-circulating water feature to decorate any small interior or exterior setting. Includes pump. Shown with Brass Rose Jet X270, included.

Diameter: 815mm (32")
Height: 348mm (13 1/16")
Weight: 67kg (148 lb)

TS Tech Sheet No. F75

Versailles Fountain
TLHC800

The design for this self-circulating fountain was inspired by the fountains within the renowned Bosquet de la Colonnade at Versailles. Ideally suited for interior and exterior settings ranging from terraces and kitchen gardens to conservatories and hotel foyers. Includes pump and Brass Rose Jet X270.

Width of bowl: 913mm (36")
Overall width of base: 675mm (26½")
Height: 390mm (15⅜")
Weight: 102kg (225 lb)

TS Tech Sheet No. F75

General Note: Simple precautions should be taken to avoid frost damage to fountains. Water should be drained off before winter every year and not replaced until spring when any risk of hard frost has passed.

GARDEN & LANDSCAPE
FOUNTAINS - SELF CIRCULATING

Arcadian Double Fountain GC300 Includes pump.

Will need topping up regularly - not suitable for continuous unattended running.

Height: 1155mm (45 1/2")
Max width: 845mm (33 1/4")
Total weight: 170kg (374 lb)
Heaviest component: 73kg (161 lb)

TS Tech Sheet No. F145

Bayeux Fountain HC130

Inspired by Romanesque architecture, this robust self-circulating fountain features stylish leaf moulding around the fountain bowls. See page 111 for Bayeux Wall Fountain. Includes pump.

Max diameter: 950mm (37 3/8")
Base diameter: 572mm (22 1/2")
Overall height: 1525mm (60")
Weight: 230kg (507 lb)
Heaviest component: 103kg (227 lb)

TS Tech Sheet No. F63

Lotus Bud Fountain GC320 Includes pump.

Will need topping up regularly - not suitable for continuous unattended running. Large bowl requires mechanical lifting on site in all instances.

Height: 1600mm (63")
Max diameter: 1125mm (44 1/4")
Total weight: 582kg (1280 lb)
Heaviest component: 267kg (587 lb)

TS Tech Sheet No. F155

Napoli Fountain HC395

Inspired by the popular Neapolitan centrepiece fountains, Haddonstone has created this self-circulating fountain in the same Italianate style.

Water cascades from a naturalistic bud into the top bowl before dropping to the bottom bowl. Ideal for use as a focal point in a small garden or patio.

Supplied with a pump. The water needs topping up regularly and is not normally suitable for continuous unattended running.

Height: 1305mm (51⅜")
Max width: 955mm (37⅝")
Weight: 183kg (403 lbs)
Heaviest component: 79kg (174 lbs)

TS Tech Sheet No. F55

GARDEN & LANDSCAPE
FOUNTAINS - SELF CIRCULATING

Andalos Fountain HC100

The twelve-sided bowl displays an hexagonal Arabesque decoration, whilst the hexagonal base has a twelve-sided decoration. Rhythmical repetition of horseshoe arches suggests the fountain could have originated in a mosque complex. Includes pump. Jardiniere available, see page 32.

Width at rim: 725mm (28½")
Width at base: 560mm (22")
Height: 770mm (30¼")
Weight: 171kg (377 lb)

Gothic Fountain with Lion Centrepiece HC253 Upper Base HA350 (optional)

The design comprises a self-circulating Gothic octagonal fountain containing a unique lion head centrepiece. Supplied with offset cable hole, pump and plumbing. Shown here on an optional Upper Base, supplied in four sections. A complementary design to the Gothic Fountain (see below) and Gothic Jardiniere (see page 35), the Gothic Fountain with Lion Centrepiece was launched at the 2013 Chelsea Flower Show.

Fountain width: 800mm (31½")
Fountain with Lion Centrepiece overall height: 1030mm (40½")
Fountain with Lion Centrepiece weight: 271kg (597 lbs)
Upper Base width: 1092mm (43")
Upper Base height: 89mm (3½")
Upper Base weight: 128kg (282 lbs)

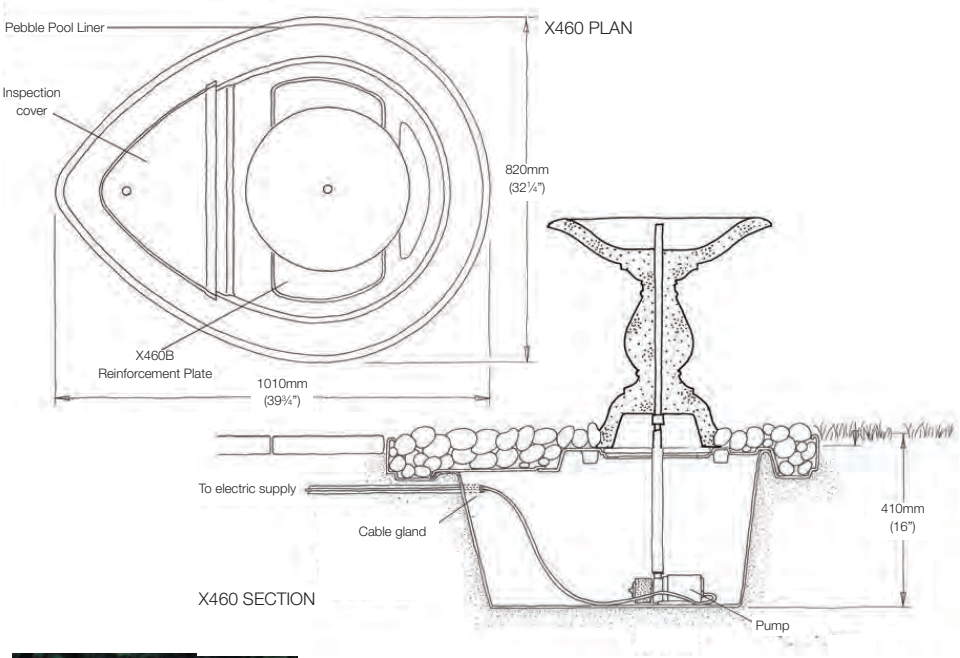
Gothic Fountain HC251 Upper Base HA350

A freestanding fountain shown with optional Upper Base. Lower Base also available. For diagram see Gothic Jardiniere on page 35. Supplied with offset cable hole unless specified. Includes pump.

Fountain width: 800mm (31½")
Fountain height: 660mm (26")
Fountain weight: 224kg (494 lb)
TS Tech Sheet No. F75

Haddonstone's Pebble Bowl concept enables fountains to be positioned in places where excavation is not possible or desirable - making Pebble Bowls ideal for patios or garden rooms. The optional GC710C Pebble Bowl Support raises the fountain off the ground, see below left.

Each fountain centrepiece is also available with a robust Pebble Pool, which requires excavation, as follows: X465 Pebble Pool [650mm (25½") diameter, 305mm (12") depth] or X460/ X461 Pebble Pool [ovoid 1010 x 820mm (39¾" x 32¼"), 410mm (16") depth]. See diagrams right, Arcadian Single Fountain shown. The appropriate Pebble Pool is identified alongside each product description where relevant.



Pebble Bowl Support GC710C

Shown with Lotus Flower Pebble Bowl Fountain, see page 109, (not included). Optional for all Arcadian Pebble Bowl Fountains.

Height: 210mm (8¼")
Overall diameter: 420mm (16½")
Weight: 39kg (86 lb)

TS Tech Sheet No. F120

Arcadian Single Fountain GC131

Includes pump and X460 Pebble Pool. Pebbles not supplied. Not available as a Pebble Bowl Fountain.

Height of stone: 470mm (18½")
Max width of stone: 457mm (18")
Weight of stone: 27kg (59lb)

TS Tech Sheet No. F106

Triple Ball Fountain GC162

Includes pump, plumbing and X461 Pebble Pool. Glass beads not supplied. Not available as a Pebble Bowl Fountain.

Max height of stone: 355mm (14")
Total weight: 124kg (273 lb)
Heaviest component: 47kg (104 lb)

TS Tech Sheet No. F110

Original design concept: Alfresco Garden Furnishings

Crucible Fountain GC200

Includes pump. Crucible planter also available, see page 43.
Height: 620mm (24 3/8") Width: 500mm (19 3/4") Weight: 105kg (231 lb)

TS Tech Sheet No. F130

Spiral Tower Pebble Bowl Fountain GC157

Includes pump. For optional Pebble Bowl Support, see page 107.
Overall height: 870mm (34 1/4")
Bowl width: 720mm (28 1/2")
Total weight: 104kg (229 lb)
Heaviest component: 62kg (137 lb)

TS Tech Sheet No. F115

Spiral Tower Fountain GC156 (not illustrated)

Inc. pump and X460 Pebble Pool.

Lotus Flower Pebble Bowl Fountain GC143

Includes pump. For optional Pebble Bowl Support, see page 107.

Overall height: 315mm (12 3/8")
Bowl width: 720mm (28 1/2")
Total weight: 80kg (176 lb)
Heaviest component: 42kg (93 lb)

TS Tech Sheet No. F120

Lotus Flower Fountain GC141 (not illustrated)

Includes pump and X465 Pebble Pool.

Height of stone: 145mm (5 3/4")
Width of stone: 500mm (19 3/4")
Weight of stone: 32kg (70 lb)

Spiral Egg Pebble Bowl Fountain GC123

Includes pump. For optional Pebble Bowl Support, see page 107.

Overall height: 670mm (26 3/8")
Bowl width: 720mm (28 1/2")
Total weight: 130kg (286 lb)
Heaviest component: 80kg (176 lb)

TS Tech Sheet No. F118

Spiral Egg Fountain GC121 (not illustrated)

Includes pump and X465 Pebble Pool.

Height of stone: 500mm (19 3/4")
Max. width of stone: 380mm (15")
Weight of stone: 80kg (176 lb)

TS Tech Sheet No. F100

Ball Pebble Bowl Fountain GC163

Includes pump. For optional Pebble Bowl Support, see page 107.

Overall height: 525mm (20 5/8")
Bowl width: 720mm (28 1/2")
Total weight: 97kg (214 lb)
Heaviest component: 47kg (104 lb)

TS Tech Sheet No. F100

Ball Fountain GC161 (not illustrated)

Includes pump and X465 Pebble Pool.

Diameter of stone: 355m (14")
Weight of stone: 47kg (104 lb)

Gecko Wall Fountain GC530A

Stone only. Recom. pump: X190.

Height overall: 345mm (13 5/8")
Width at top: 270mm (10 5/8")
Weight: 7kg (15 lb)

TS Tech Sheet No. F157

Gecko Bowl Fountain GC531

Incorporating GC750 Bowl & pump.

Height overall: 595mm (23 1/2")
Stone width overall: 350mm (13 3/4")
Total weight: 29kg (64 lb)
Heaviest component: 21kg (46 lb)

TS Tech Sheet No. F157

Green Woman Bowl Fountain GC541

Incorporating GC755 Bowl. Includes pump.

Height overall: 750mm (29 1/2")
Bowl width: 480mm (18 7/8")
Total weight: 54kg 119 lb)
Heaviest component: 34kg (75 lb)

TS Tech Sheet No. F161

Green Woman Wall Fountain GC540A

Stone only. Recom. pump: X190.

Diameter: 400mm (15 3/4")
Thickness: 100mm (3 7/8")
Weight: 17kg (37 lb)

TS Tech Sheet No. F161

Tree Frog Bowl Fountain GC551

Incorporating GC755 Bowl. Includes pump.

Height overall: 750mm (29 1/2")
Bowl width: 480mm (18 7/8")
Total weight: 54kg (119 lb)
Heaviest component: 34kg (75 lb)

TS Tech Sheet No. F161

Tree Frog Wall Fountain GC550A

Stone only. Recom. pump: X190.

Diameter: 400mm (15 3/4")
Thickness: 100mm (3 7/8")
Weight: 17kg (37 lb)

TS Tech Sheet No. F161

Medusa Bowl Fountain GC521

Incorporating GC750 Bowl, see above. Includes pump.

Height overall: 595mm (23 1/2")
Stone width overall:
350mm (13 3/4")
Total weight: 29kg (64 lb)
Heaviest component: 21kg (46 lb)

TS Tech Sheet No. F157

Medusa Wall Fountain GC520A

Stone only. Recom. pump: X190.

Height overall: 345mm (13 5/8")
Width at top: 270mm (10 5/8")
Weight: 7kg (15 lb)

Green Man Bowl Fountain GC501

Incorporating GC750 Bowl, see above. Includes pump.

Height overall: 560mm (22")
Stone width overall:
350mm (13 3/4")
Total weight: 28kg (62 lb)
Heaviest component: 21kg (46 lb)

TS Tech Sheet No. F157

Green Man Wall Fountain GC500A

Stone only. Recom. pump: X190.

Width of stone: 220mm (8 3/4")
Height of stone: 280mm (11")
Weight of stone: 5kg (11 lb)

Shell Wall Fountain
HC540

A beautiful formalised, scalloped shell forms the bowl of this wall fountain, supported by a boldly voluted console. Illustration shows Shell Wall Fountain HC540 and Console HC550 with Dolphin C170 and Console C160.

Width: 760mm (30")
Shell projection: 650mm (25½")
Height of shell and console: 785mm (31")
Weight: 165kg (363 lb)

Please note that a 215 mm (8½") minimum wall thickness is required for this ensemble. Coping details available on request.

Recommended pump: X220

TS Tech Sheet No. F10 & F11

Athenian Wall Fountain TLC928

This elegant, self-circulating wall fountain is a new design to complement the Athenian Collection of planters and pedestals created by Haddonstone in partnership with Robert A. M. Stern (see pages 47-51). Supplied with pump and pump cover.

Width of bowl: 740mm (29⅛")
Projection from wall: 405mm (16¼")
Overall height: 1234mm (48½")
Weight: 72kg (159 lb)
Heaviest Component: 47kg (104 lb)

TS Tech Sheet No. F67

ROBERT A.M. STERN COLLECTION

Haddonstone Wall Fountain HC270

A delightful wall fountain, of neoclassical design. The bowl is supported by a tapered, fluted pedestal with a spiralling ribbon design. Ideal as a wall decoration on a terrace or in a conservatory or hotel foyer. This design can be installed on most existing walls. Includes pump.

Height: 1650mm (65")
Shell projection: 410mm (16⅛")
Width overall: 720mm (28¼")
Weight: 126kg (278 lb)

TS Tech Sheet No. F60

Haddonstone Wall Fountain HC271

This delightful wall fountain is a variation on the HC270, see above. It has been designed to allow for face fixing to most existing walls via an ingenious combination of concealed dowels and a wrought iron strap. Includes pump.

Height: 1065mm (42")
Shell projection: 410mm (16⅛")
Width overall: 720mm (28¼")
Weight: 95kg (209 lb)

TS Tech Sheet No. F61

Bayeux Wall Fountain HC135

A self-circulating, wall mounted version of the Bayeux Fountain (see page 104).

Includes pump

Projection from wall: 480mm (18⅞")
Width of bowl: 950mm (37⅜")
Width of base: 572mm (22½")
Overall height: 1525mm (60")
Weight: 134kg (295 lb)
Heaviest component: 48kg (106 lb)

TS Tech Sheet No. F64

SIR JOHN SOANE'S MUSEUM LONDON

Soane Mouth of Truth Fountain TLC972
Soane Mouth of Truth Mask TLQ972
(not illustrated)

This large mask, replicated from the Soane Museum, is similar to the Bocca della Verità in Rome that famously features in Audrey Hepburn's 1953 film "Roman Holiday". Dating from the Roman Hadrianic period or later, with its theatrical appearance, the Mask features an open mouth with flowing hair and can be used as a wall plaque or can be adapted for use as a built-in wall fountain. An intriguing design equally at home in a contemporary or classical setting.

Height: 640mm (25¼")
Width: 647mm (25½")
Depth: 85mm (3⅜")
Weight: 42kg (93 lb)

Grotesque Mask E340
Grotesque Wall Fountain C260 (Not illustrated)

A vigorous comic mask.
Height: 265mm (10½")
Width: 230mm (9")
Weight: 8kg (17 lb)

Recommended pump: X210

Lion Wall Fountain C310
Lion Wall Mask E470 (Not illustrated)

A handsome lion mask mounted on a square stone. Designed to be built into a wall.

Height of stone: 290mm (11½")
Width of stone: 290mm (11½")
Height of mask: 315mm (12½")
Weight: 15kg (33 lb)

Recommended pump: X210

TS Tech Sheet No. F40 & M59

Large Lion Wall Fountain C315

Designed by Haddonstone in the style of the antique, this robust wall fountain features a lion with a flowing mane.

Width: 452mm (17¾")
Depth: 170mm (6¾")
Weight: 24kg (53 lb)

Recommended pump: X220

TS Tech Sheet No. F45

Wood Nymph Wall Fountain C320

Mounted on a square stone, this charming new wall fountain is designed to be built into a wall. As shown, it also provides an alternative to the Lion Wall Fountain when used in conjunction with the C531 Dauphin Fountain.

Width of stone: 295mm (11⅝")
Height of stone: 295mm (11⅝")
Width of mask 320mm (12½")
Height of mask: 480mm (19")
Weight: 24kg (52 lb)

Recommended pump: X210

For details of pool surrounds, see pages 97-102.

Dauphin Fountain
C530

Designed in the continental style, this attractive self circulating fountain features a handsome lion mask together with bold scroll details. The half octagonal pool conceals a glass fibre liner. Includes pump. Shown with Swagged Roundel (page 195), Ionian Jardinieres (page 30) and Copings, Strings and Bosses (page 110).

Width: 1180mm (46½")
Depth: 700mm (27½")
Height: 1460mm (57½")
Weight: 430kg (947 lb)

TS Tech Sheet No. F65

Dauphin Fountain
C531 (Not illustrated)

Incorporating the charming Wood Nymph Wall Fountain, see left.
